Guardian CRM Inc

I. EXECUTIVE SUMMARY

The City of Sebastian Community Development Department is pleased to present the third Annual Action Plan for 2021-2022. This plan addresses programs for the Community Development Block Grant (CDBG) funding provided by the U.S. Department of Housing and Urban Development and identifies the second programmatic year specific objectives and outcomes.

To provide a suitable living environment

This includes improving the safety and livability of neighborhoods; increasing access to quality facilities and services; reducing the isolation of income groups within areas by de-concentrating housing opportunities and revitalizing deteriorating neighborhoods; restoring and preserving natural and physical features of special value for historical, architectural, or aesthetic reasons; and conserving energy resources.

To provide decent housing

Included within this broad goal are the following: assist homeless persons in obtaining affordable housing; retain the affordable housing stock; increase the availability of permanent housing that is affordable to low- and moderate-income residents without discrimination; and increase supportive housing the includes structural features and services to enable persons with special needs to live in dignity.

To expand economic opportunities

Within this goal are creating jobs accessible to low and very low-income persons; providing access to credit for community development that promotes long term economic and social viability; and empowering low- income persons in federally assisted or public housing to achieve self sufficiency.

II. CITIZEN PARTICIPATION

This plan was created through consultation with various agencies and public hearings open to the public for comment on the needs of low- to moderate-income persons in the City. There was a public hearing and a public notice comment period where the plan was posted on the official website. The City also recently did a city-wide needs survey and preserving housing stock was a high priority. Moving all the funds to housing means that the City will achieve 100% LMI benefit which helps in the overall 5-year goal of benefiting LMI with 70% of the funds.

The City has not received any written comments relative to the CDBG program, and if any are received, they will be documented in future Action Plans.

III. RESOURCES

The City is slated to receive an allocation for the CDBG program for FY2021-22 of \$133,517.
